

# Afghanistan FLOODS

Areas	Afghanistan Parwan, Kabul, Maidan Wardak, Kapisa, Nangarhar, Nooristan, Laghman, Panjshir, Paktya, Logar, Khost, Ghazni, and Paktya	Death Toll	More than 200
Period	August to September, 2020	Missing	—
Outline	Days of seasonal rainfall triggered deadly floods in the total 13 northern and eastern provinces. Parwan was the most severely affected. Global warming and climate change are blamed for increased extreme rain events in the country.		

Based on information from media, humanitarian and government organizations
