

# Uttarakhand, India FLOODS

Areas	Uttarakhand, India Chamoli district	Death Toll	72
Period	February, 7, 2021	Missing	132
Outline	Deadly flood struck Uttarakhand's Chamoli district, which seemed to have occurred by a massive landslide. The flood swept away the unfinished hydropower project and inflicted substantial damage on another project. Experts are warning that global warming is responsible for faster glacial melting in the region.
