

Florida, USA Wastewater Leak at Piney Point Phosphate Plant

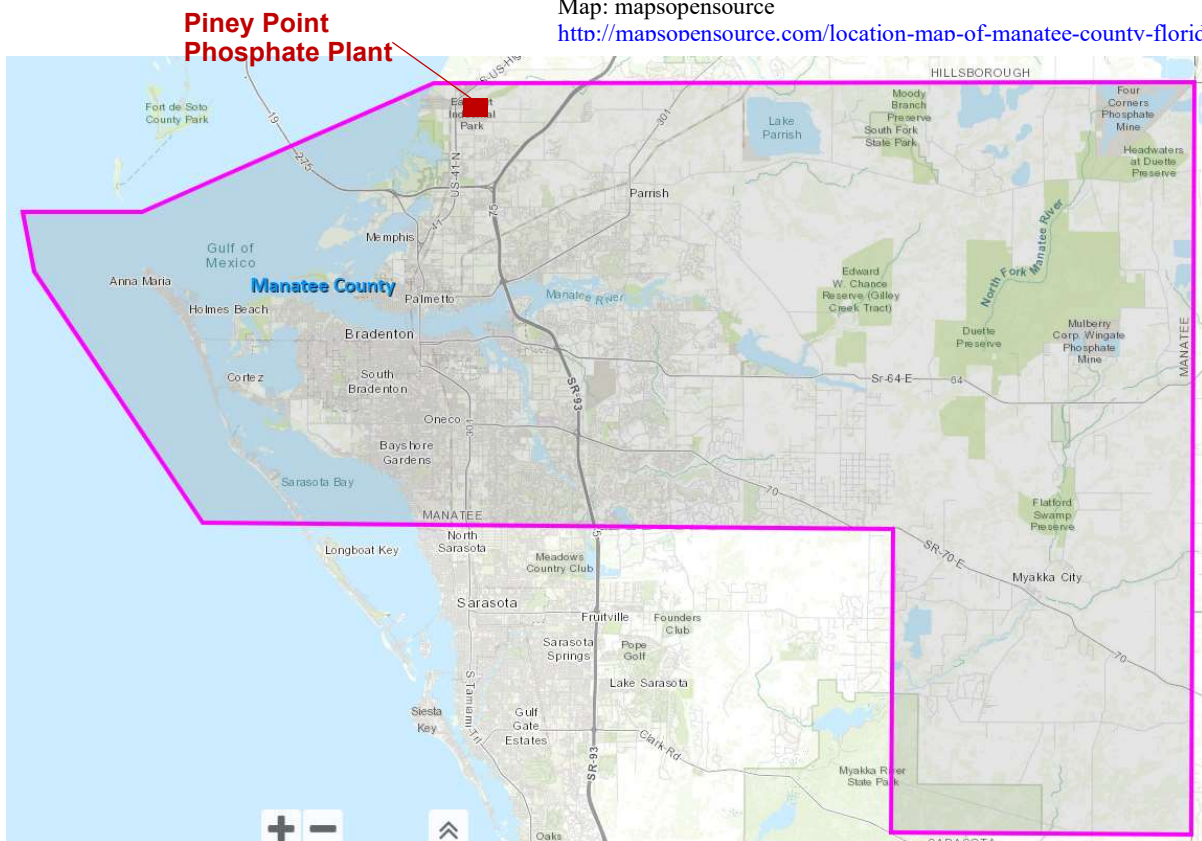

Area	Florida, USA Piney Point Phosphate Plant in Manatee County	Death Toll	0
Period	April 2 to 11, 2021		
Outline	The leak took place at Piney Point Phosphate Plant, a former fertilizer plant, due to a crack in the plastic liner of one of the wastewater ponds. More than 300 homes were evacuated for fear of collapse. Although catastrophic disaster had been avoided, there are still concerns about impact of discharged water on the environment.	Missing	0
