

China (Henan) FLOODS

Area	Henan Zhengzhou, Hebi, Anyang, Xinxiang, etc.	Death Toll	398 人 (with 380 in Zhengzhou)
Period	mid to late July, 2021	Missing	
Outline	Record-breaking rainfall caused flooding and landslides throughout the province. In Zhengzhou, the hardest-hit city, the largest one-hour rainfall in history was observed, which triggered flooding in subways and tunnels.		

The figures of victims are based on the Government announcement dated on Jan. 21, 2022.
