

Spain Flood

Area	Spain Poyo River and Magro River Basins, Valencia Province, Leteur River, Albacete Province, Castile-La Mancha Province	Death toll*	223
Period	October 25 – November 4, 2024		
Outline	A cut-off low pressure system drew in moist warm air from the Mediterranean Sea and formed intermittent cumulonimbus clouds, resulting in torrential rains of 184 mm/1h. The Poyo River, a small urban river, swelled and overflowed rapidly, and more than 200 people died as a result of the delayed warning.	Missing*	17

*Numbers of victims are based on the release by Spanish government of November 13, 2024.
